

# Case Study

**Product:** VDO Rolling Road Lite

**Company:** Bartlett's Service Station Isle of Wight

## Company Profile

Bartlett's Service Station, have been trading in the village of Newchurch on the Isle of Wight since 1970. Bartlett's originally started out with 2 staff and now employ 22.

## Fleet Size

Not applicable.

## Business Issue

Bartlett's wanted to increase their services and include tachograph calibrations for HGV's.

## Continental Solution

VDO Rolling Road Lite

## Key Benefits

The unit is an economical solution with installation direct onto the workshop floor meaning there is no need for any additional groundwork costs.

## Customer Comment

"We were impressed at the speed that the unit was installed plus the high standard of training our tachograph technicians received on the VDO VOSA Approved tachograph installation training course".
