

Case Study

Product: VDO Digital Tachograph and Remote Data Downloading Device (DLD®)

Company: EBB Paper

Company Profile

Elliott Baxter & Company Limited was formed in 1922 by Alan George Elliott and today is run and owned by the third and fourth generation of Elliotts. The company has 11 state-of-the-art storage and distribution centres covering the UK, offering a huge range of paper and delivers an average of 100,000 tonnes per year.

Fleet Size

90 HGV's.

Business Issue

EBB wanted to upgrade to the latest version Digital Tachograph to gain time savings on the one minute rule and to have the ability to download data to simplify data collection.

Continental Solution

VDO DTCO 2.1 Active, Remote DLD® and VDO TIS-Web online analysis and archiving software solution.

Key Benefits

Greater efficiency of operation.

Customer Comment

"We need to ensure we run at optimum efficiency at all times whilst ensuring we keep our fleet fully compliant within the letter of the law. At EBB we are delighted with the VDO digital tachograph and DLD® technology as it is saving us considerable time and money".

Andy Young, EBB Service Manager
